The New Government

## THE PRIME MINISTER ANNOUNCES HER STAFF

**Purikali** - Prime Minister Sindi Wisnumatan of the Party of Progress (PM) announced yesterday her government team. She was chosen by the Parliament last week after the Renovation Party (PW) - former Islamic Republican Party - decided to support the new coalition (PM-PT) and left its former allies of PMR and PH. And the Party of Progress is back to the government 19 years later.

The new team will be formed by 5 ministers from the Party of Progress: Elisbet Yemsawa (Foreign Affairs), Charles Li (Finance), Warak Aramratu (Education), Duwemi Lahudin (Economy) and the former Prime Minister Philip Kurumali (Home Affairs); 3 from the National Party (PT): Moniki Dewasakti (Justice), Mina Rajasamudra (Science & Technology) and Ewi Desajaya (Social Assistance); 3 from the Renovation Party (PW): Wahid Tawahulu (Health), Tomas Akalu (Communication) and Lila Jalaluddin (Natural Resources); 1 from the Democratic-Christian Party (PDK): Markus Santos (Agriculture and Fisheries) and 2 without party: the retired general Yokong Nai (Defense) and the film director Wisi Tuahi (Culture).

According to analysts, the new government is expected to take measures to accelerate the economic growth and reduce participation of the State in the economy. According to them yet, the main reason for the defeat of the coalition PMR-PH was the poor performance of the economy in the last years.

### Foreign affairs

Aswini Ruikawahi resigned two months before the end of her mandate, allowing Wisnumatan's team to take control of the government actions still this year.

The first measures will be in the foreign affairs, as explained by ms. Yemsawa: "embassies will be reviewed and some can be closed." On the other hand, new embassies are to be open, such as the one in the Kingdom of Guelphia, as considered after the king's visit to that country in September. Furthermore, the new government will receive next week the visit of a delegation from the rich European kingdom of Karstonia, including the Prime Minister Maria Wassiljevaska, the Foreign Minister Hannes Bjurholm and some businessmen from important Karstonian companies.

### Help to the victims of Haiyan

The new government approved emergency funds of two million huwa to aid the victims of the typhoon Haiyan that ravaged the Philippines on November 8.

## The national football team returns earlier than expected

**Porto da Mata** - After a disastrous campaign in the FICT games played in Yutyrama, in which the team lost its three games, 0-1 against Guelphia, 1-3 against Adzhatia and 1-3 against Yutyrama, the players already packed up and should arrive in Purikali this Thursday. "I can't explain such a terrible performance", the quarterback Tomas Behambili said tersely. Edwar Aramduhun and Kamak Korderu will not return with the rest of the team but will travel respectively to Japan and the Netherlands; Aramduhun plays for Kashima Antlers and Korderu for Ajax. It is speculated that the coach Henrique Rotil will probably be fired after returning to Kaupelan.

## Watera closes its plant in Yutyrama

**Purikali** - Despite the positive financial result of the company this year driven by sales of the tricycle Trixi from its subsidiary Darapali, KS Watera decided to close its CKD plant in Porto da Mata where the mini-car Jimpy was assembled. "Sales in the South American market were much lower than expected in the two years of operation there", said a company executive. From 2014 on, Jimpy will be manufactured only at the plant in Ambon, Indonesia.
